

Name:

Qousain Haider

Roll-No:

2024-CET-13

Department:

Software Engineering

Group:

Computer Engineering Technology

Semester:

4th Semester

Subject:

Database Applications

Lab Task:

Introduction to DBMS and Basic Database Creation using
XAMPP

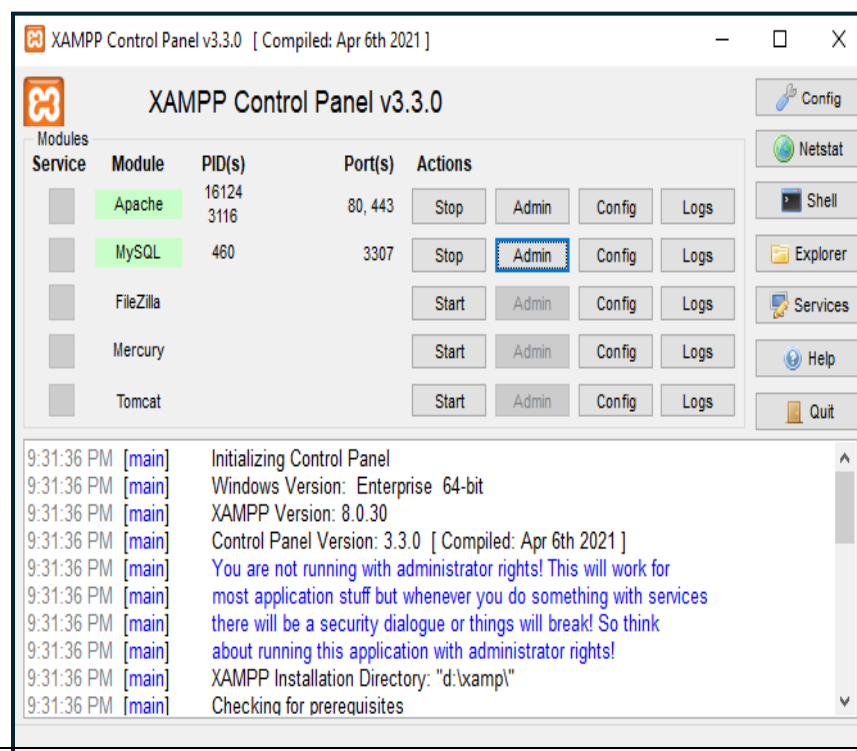

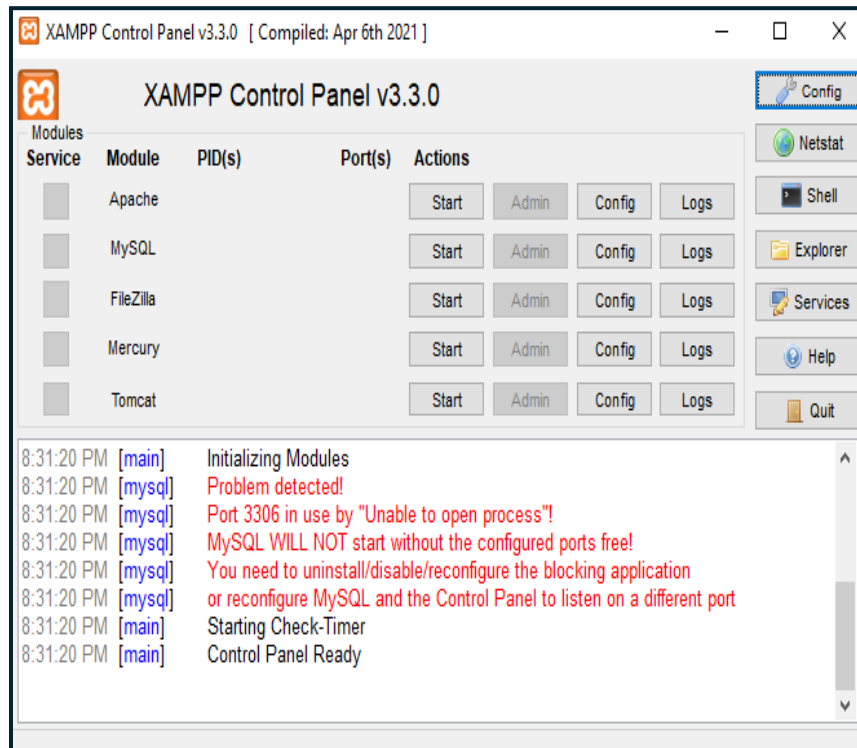

Submitted To:

Engr. Asma Javid

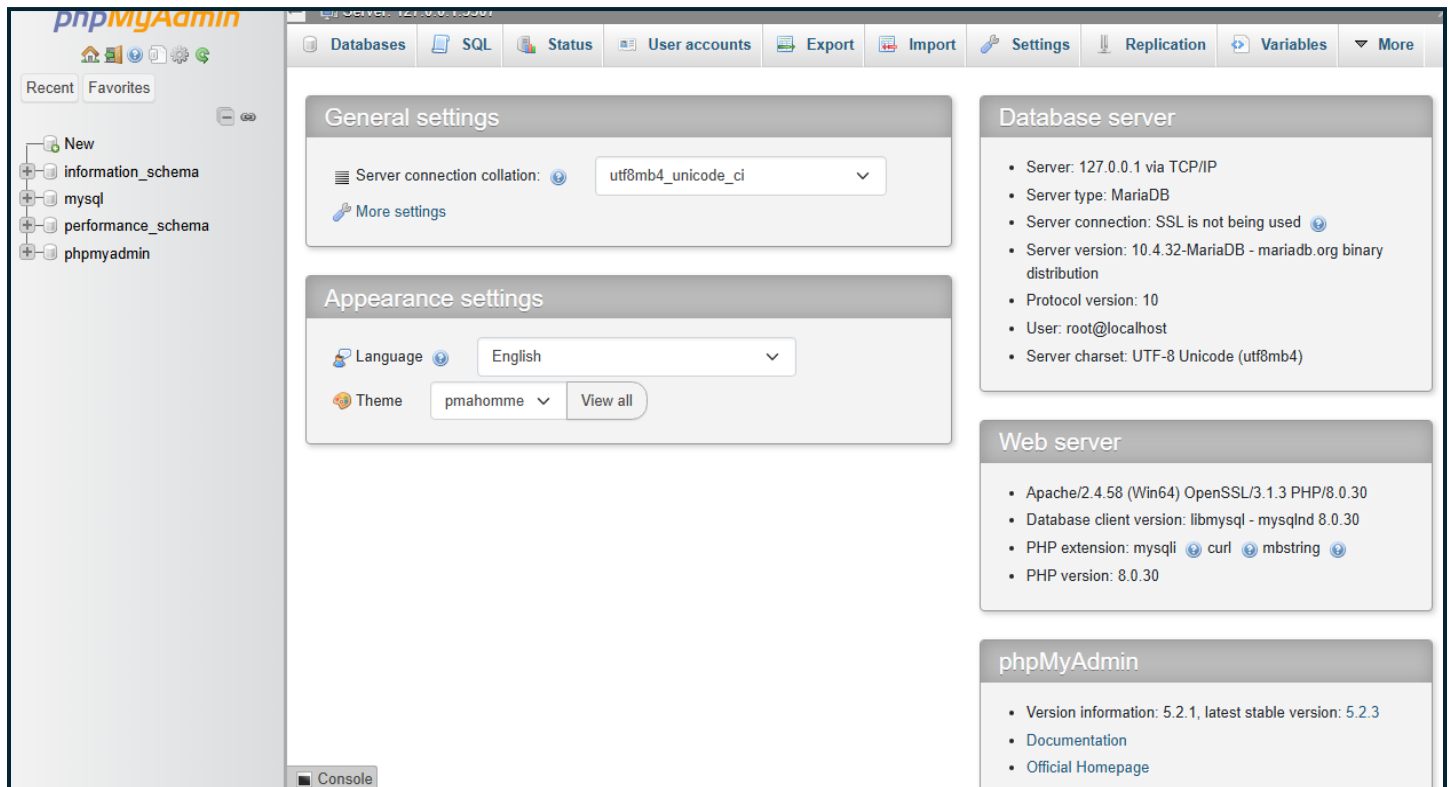

Lab Task 3

Practical Task:

Step 1: Install XAMPP and start Apache and MySQL.

Open browser and type: <http://localhost/phpmyadmin>

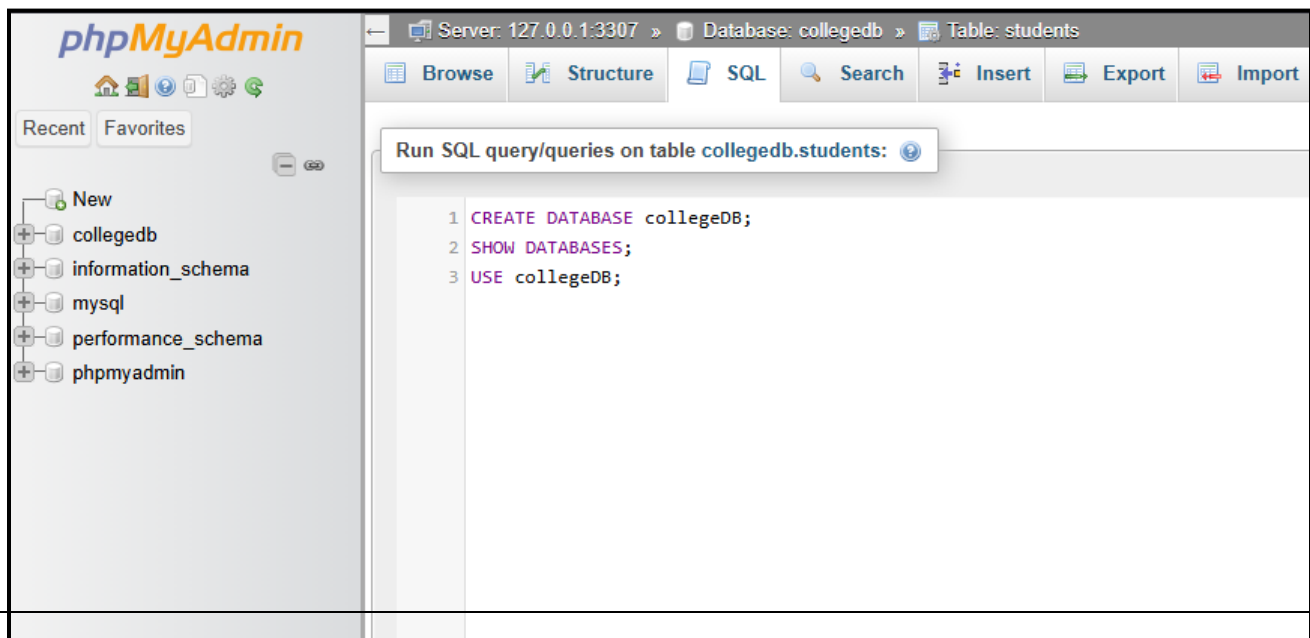

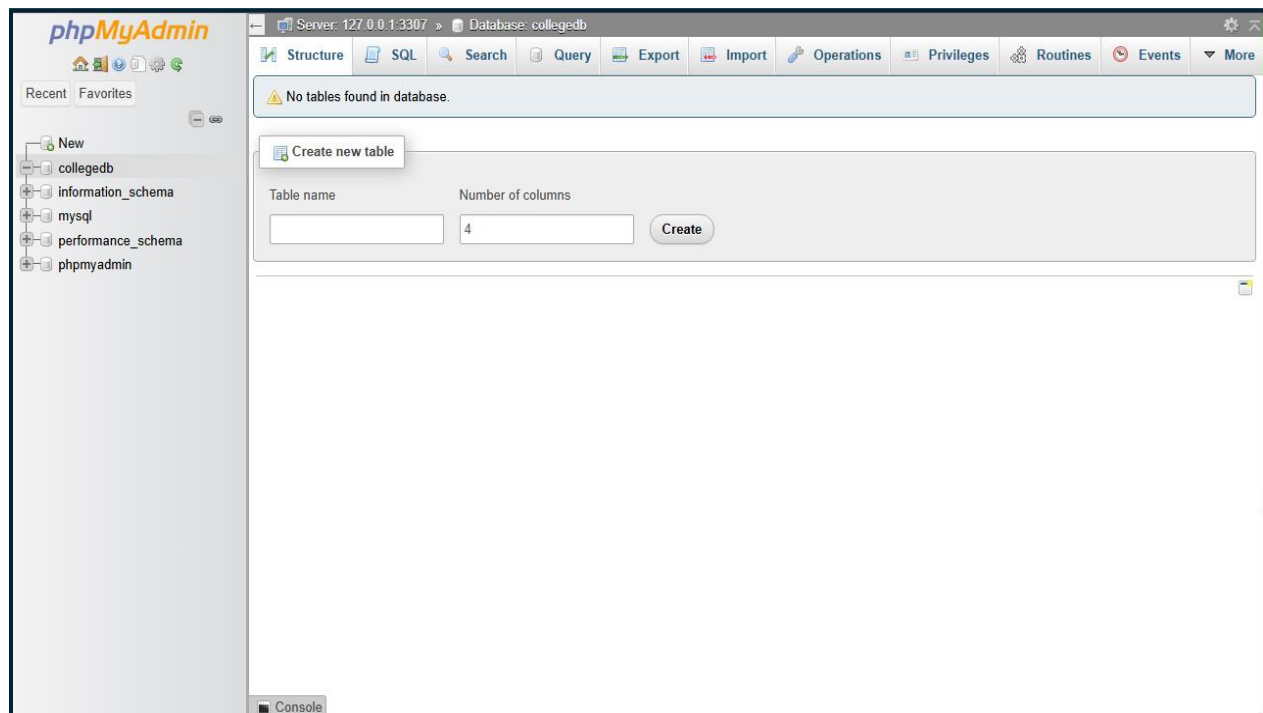

Step 2: Create Database:

CREATE DATABASE collegeDB;

SHOW DATABASES;

USE collegeDB;

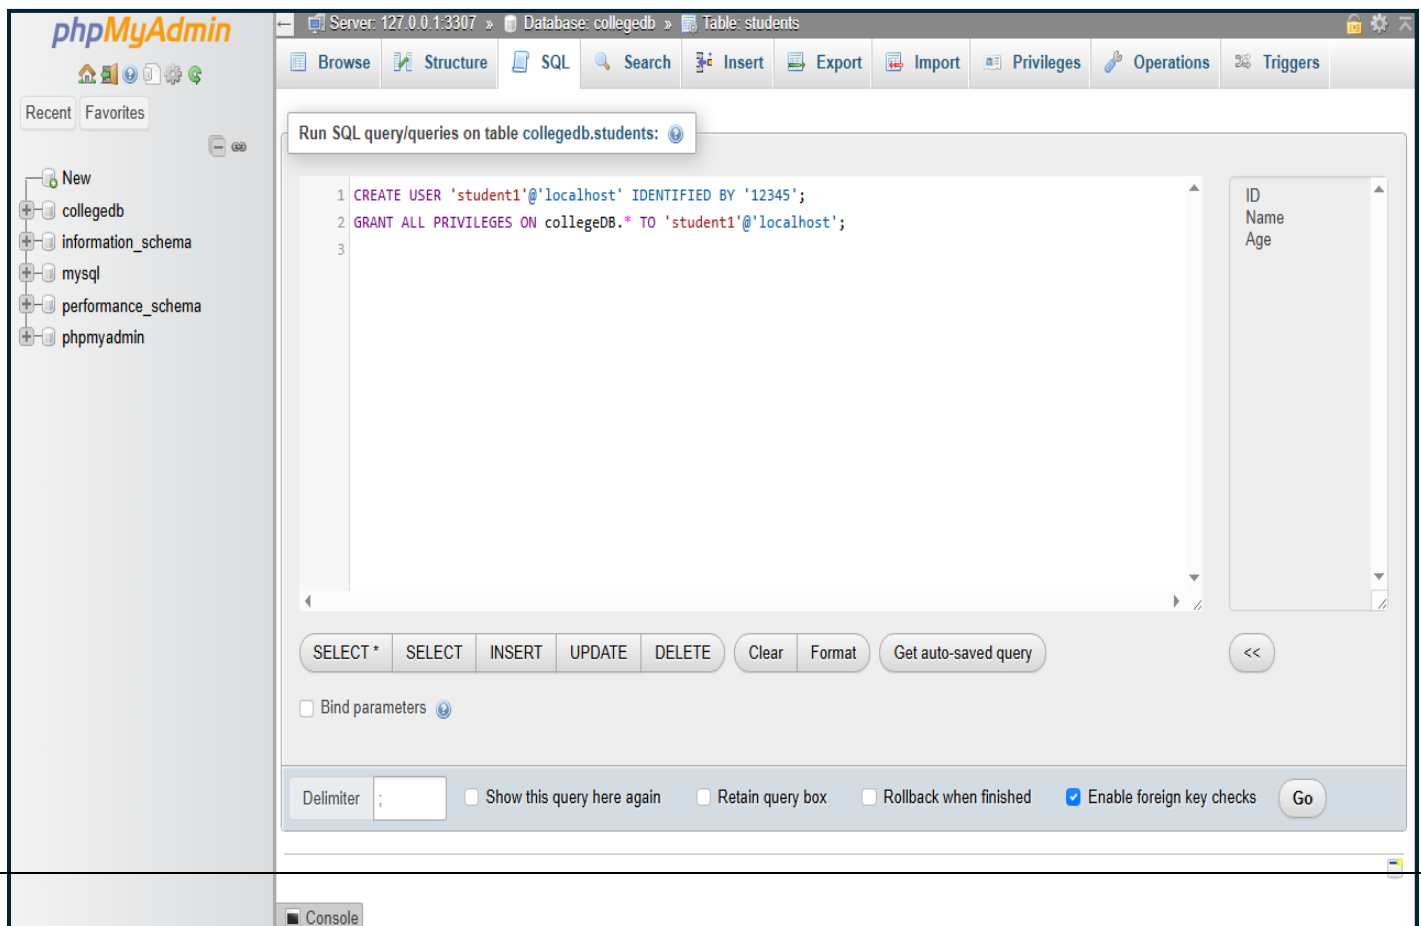

Step 3: Create User and Set Password:

CREATE USER 'student1'@'localhost' IDENTIFIED BY '12345';

GRANT ALL PRIVILEGES ON collegeDB.* TO 'student1'@'localhost';

Step 4: Create Table:

CREATE TABLE Students (ID INT PRIMARY KEY, Name VARCHAR(50), Age INT);

SHOW TABLES;

DESC Students;

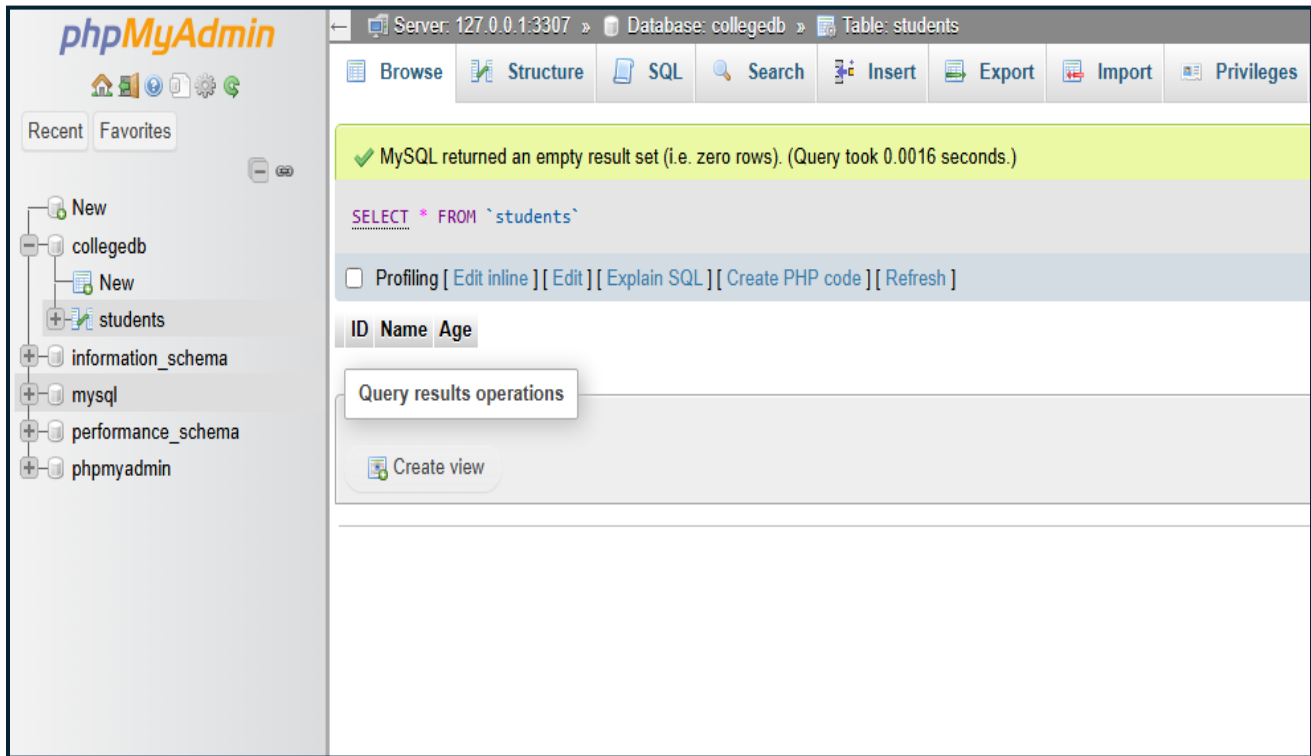

The screenshot shows the phpMyAdmin web interface. The top navigation bar includes links for Browse, Structure, SQL, Search, Insert, Export, Import, Privileges, Operations, and Triggers. The left sidebar displays a database tree with 'collegedb' selected, and a 'students' table being created. The main area is titled 'Run SQL query/queries on table collegedb.students:'. It contains a text box with the following SQL queries:

```
1 CREATE TABLE Students (ID INT PRIMARY KEY, Name VARCHAR(50), Age INT);
2 SHOW TABLES;
3 DESC Students;
```

To the right of the text box is a preview of the table structure:

ID	Name	Age
----	------	-----

Below the text box are buttons for 'SELECT *', 'SELECT', 'INSERT', 'UPDATE', 'DELETE', 'Clear', 'Format', and 'Get auto-saved query'. There is also a checkbox for 'Bind parameters'. At the bottom, there is a 'Delimiter' dropdown set to ';', and several checkboxes: 'Show this query here again', 'Retain query box', 'Rollback when finished', and 'Enable foreign key checks' (which is checked). A 'Go' button is at the bottom right. A 'Console' tab is visible at the bottom left.

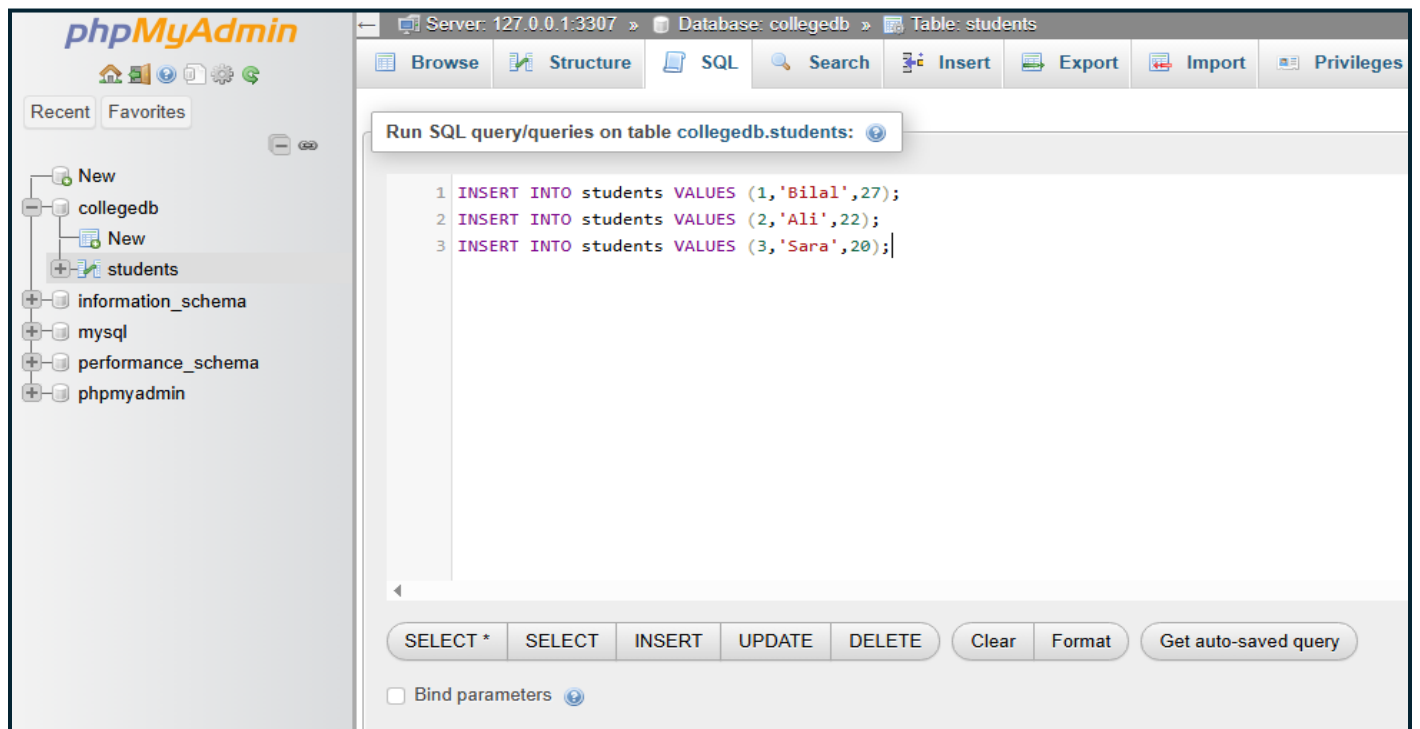

Step 5: Insert Data:

INSERT INTO Students VALUES (1,'Ali',20);

INSERT INTO Students VALUES (2,'Sara',22);

SELECT * FROM Students

phpMyAdmin
